Ike Convinced Farm Program Is Right One

WASHINGTON (AP) — President Eisenhower said today he is convinced his farm program is the right one. He declared, with reference to misgivings about it within his own party, that time will tell whether the program is politically feasible in an election year.

Eisenhower gave his views briefly at a news conference less than 24 hours after some GOP senators had voiced doubt whether his proposed shift from fixed to flexible farm price supports could be adopted with a congressional election coming up.

Over the long run, Eisenhower's plan — sent to Congress Monday — would point toward declining government expenditures for farm aids.

For one thing, it would permit the government to drop price supports as low as 75 per cent of parity compared with the 90 per cent support now given basic crops.

In response to questions about the political feasibility of the plan, the President told his news conference he does not regard himself as too smart a politician.

He went on to say he does not believe anybody can study the farm program as carefully as his administration he studied it and still believe the present system is workable and helpful to farmers.

He declared his conviction that the system he proposed will work toward prosperity for agriculture. It is not politically feasible to adopt this system, the President said, we will find that out.

But in any case, he said firmly, he believes the plan he put forward is the right one.

Asked whether he would veto a farm bill which retained the present fixed 90 per cent of parity supports, Eisenhower said with a grin he can never veto anything until Congress sends it to him.

He added that much legislation is so complex it is impossible for a president to veto it simply because he does not like a particular part of it.

A the Capitol, some Republicans were talking fondly of Sen. McCarthy's proposal to set a 100 per cent parity price goal for the farm program.

Few Changes in Bank, Loan Asso. Election

Local banks and loan associations held annual directors and stockholders meetings yesterday and last night with very few changes resulting.

Citizens National Bank added Dale Jones to its board while Hope Loan and Savings Association had two new board members, Fred Ellis and Dick Watkins, both for three year terms.

Citizens Bank officers include: O. A. Graves, chairman of the board, R. M. LaGrone, president, C. C. Spragins, executive vice president, Dale Jones, cashier, Olin Lewis and Raymond Jones, assistant cashiers. Directors other than officers include S. L. Reed, J. A. Haynes, Albert Graves, N. T. Jewell, George Peck, George Robinson and T. F. McLeary.

First National Bank had no changes: Lloyd Spencer, president, W. C. Lemley, vice president, Syd McMath, executive vice-president, Thomas E. Hays, cashier, Cecil J. O'Steen and Genie Chamberlain assistant cashiers. Board members other officers include: Graydon Whoney, J. P. Duffie, B. W. Edwards, Vincent W. Foster, W. H. Guter, E. M. McWilliams, Earl O'Neal and E. P. Stewart.

Bankers adopting a new charter Hope Savings and Loan Association Board named J. P. Duffie president; N. T. Jewell vice-president, Fred Ellis secretary, Albert Graves, attorney and Frank Hill, assistant secretary.

Sids on New Hospital by February 15

Hempstead County's hospital board met with the architect and mechanical engineer last night and today all indication construction for the new \$800,000 hospital will be advertised on February 15, board member Clifford Franks announced today.

Plans for the hospital are almost primarily concerning neat discussion primarily concerning heat and air-conditioning for the building.

An application has been filed with the State Health Department and barring unforeseen complications the board will advertise for bids February 15, Mr. Franks said.

Mississippi Asked to Help on Bridge

JACKSON, Miss. (AP) — Mississippi was asked to put one million dollars as its share of a Mississippi river bridge between Friars Point, Miss., and Helena, Ark.

The proposed bridge would cost about 7½ million dollars with Arkansas putting up the major portion.

Attorney John Sheffield and a group of Arkansas conferred with Gov. Hugh White yesterday seeking his support of the project.

The group said Arkansas was ready with \$½ million dollars to begin construction if the Mississippi Highway Commission get authority to contribute its million dollars.

Legislation to empower the commission to spend the money is expected to be introduced during this session of the Mississippi Legislature.

Officers Meet to Set Up Peace Talks

By JOHN RANDOLPH AND WILLIAM C. BARNARD

PANMUNJOM U. S. Everyone Kenneth Young said tonight allied and Red liaison officers will meet tomorrow in the first step toward resuming talks to set up a Korean peace conference — apparently on Red terms.

The Communists asked Monday for the low-level meeting — but only to discuss a date for reopening preliminary talks broken off Dec. 12 by the United States.

The Allies replied Tuesday with a note asking that the staff officers discuss both date and conditions for resuming the conference. The Reds answered with a new note Wednesday.

When he first announced that the officers would meet Young said they would discuss the conditions. He did not release the text of the Red note, but paraphrased it this way: "The Reds agree to a meeting . . . to agree on the date for political discussions regarding a political peace conference."

When asked later about the absence of the word "conditions" in the paraphrase Young said the latest Red note did not mention "conditions," but only the time of the meeting.

Peiping radio said earlier the Communist liaison officers were prepared to discuss only the late and not conditions for resuming the preliminary talks. Peiping said:

"The only condition required to reopen the discussion is that the Americans come back to the conference table. There can be no other condition."

The plot of Trippin' Around revolves around Jim and Mary who are planning a long delayed vacation. Proceeds from the show are to be used for the benefit of the Student Loan Fund.

The cast of more than 200 local people have a dress rehearsal tonight at the high school. The show will feature ultra violet lighting and fluorescent costumes. In all there are eight scenes in the musical extravaganza. One of the most beautiful scenes in the show is the "Niaara Falls" scene with Hope O'Gran and Homer Jones as the "Bride and Groom". Dancers for this scene will be more than thirty high school girls. Another scene which is sure to please is a children's fantasy scene with Mrs. Sam Andrews as the "Pearly Godmother". More than fifty children from the elementary grades will take part in this scene.

A feature of the Friday night show will be a Coronation ceremony in which the winners of the baby contest being held in connection with the show will be announced. A King, Queen, Prince, Duke and Duchess will be crowned and awarded loving cups. Five runner-up prizes will also be awarded.

Capacity audiences are expected for both nights of the show.

Strike Vote Is Left Up to the Workers

By NORMAN WALKER

WASHINGTON (AP) — President Eisenhower said today he is leaving up to Congress whether a workers' strike vote should be taken before or after a walkout.

The President declined at his news conference to say whether he regards his proposal for a strike vote as "must" legislation.

Such a vote was among his recommendations he sent to Congress Monday in outlining a 14-point program for revising the Taft-Hartley Labor Relations Act.

In his special message, the President phrased his strike-pool idea in general terms. He said that since going on strike and thus losing pay is so important to the individual worker, he should have a chance to "express his choice by secret ballot held under government auspices."

This left it unclear whether the President had in mind a poll taken before a walkout or after the workers were on strike.

Reporters were primed with questions on this uncertainty when Eisenhower met with them.

First off the President was asked to clarify whether the strike pool system he proposed was intended to apply before a strike could begin.

Eisenhower declined to give a direct answer.

He said in making the recommendation he was trying to establish a principle — that he carefully avoided spelling out exact details because that is the province of Congress.

His identities have been kept secret until now and a guessing contest has been held. The first five people who correctly guessed who they were won the free tickets to the show, which is to be held this Thursday and Friday in the Hope High School Auditorium.

Opera Tenors Are Getting Very Scarce — Now Some Folks Allow as How That's Fine

By HAL BOYLE

NEW YORK (AP) — Tenors are getting almost as scarce as larks at the north pole.

Not bathroom tenors. Too many of them. But real tenors, opera tenors are in short supply. It's got some of them worried.

"In the entire world today there are only 10 tenors who can sing major dramatic roles with authority," said Ramon Vinay, a former baritone who became a tenor by accident rather than intent.

"As a result we have to travel like mad, and we are getting tired. And some of us are showing voice strain."

This may not appear much of tragedy to the average man who ordinarily doesn't list tenors as among the earth's major blessings, but when a few top tenors go hoarse — it is a real blow to the world of serious music. Some fellow has to hit all those big notes and kiss the soprano or how can the opera go on?

And it isn't as easy as it looks. "Before a new production we rehearse for about three weeks," said Vinay, who keeps in shape by weight lifting. "And believe me, five hours on the stage of the Metropolitan Opera is like 12 hours on the docks. It's like pushing a street car 20 blocks, you come home and drop dead."

All tenors are unusual but even among his fellow tenors Vinay is a standout. He is a big bear-like man who looks like Luis Firpo, the former South American heavyweight boxer.

Vinay was born in Chile, raised in France and started his career pushing a broom in a Mexico City department store. He also worked as a traveling salesman and a medicine box manufacturer before he was discovered.

Defendant Kills Judge, Police Kill Defendant

WARREN, Pa. (UP) — A defendant about to be sent to jail for failure to support his wife, shot and killed Warren County Judge Allison D. Made today in his courtroom.

Police said Norman Moon, of Connelville, Pa., fired five or six shots at Wade as the jurist sat on the bench. Moon fled.

A report to the court house said Moon was killed, or shot himself during an ensuing gun battle with state police near Youngsville, Pa.

According to court records, an order had been entered against Moon some time ago, directing him to pay \$30 a week toward the support of his wife. He appealed to Superior Court but lost.

Hailed into court again this morning, Moon said he was not prepared to make the required payment. Judge Wade called him before the bench preparatory to imposing a sentence. It was then Moon opened fire.

The judge fell mortally wounded. In the confusion, Moon ran from the courthouse and escaped in his automobile. Police gave chase.

Officers said Moon stopped his car on the highway, between Warren and Youngsville and got out brandishing a pistol. State police opened fire.

The annual school election will be held by the qualified electors of the various school districts of Hempstead County on Saturday, March 20, between the hours of 8:00 a.m. and 8:30 p.m. The electors will vote a millage to be levied for building, debt service and general fund for the operation of schools of their districts. A district must vote at least 18 mills to qualify for state aids, it was announced by Elmer R. Brown, County Supervisor.

Districts electing board members are as follows: Hope School District, No. 1—A elects four directors, one for Post No. 1, one for Post No. 2, one for Post No. 3, each to serve for three years, and one for Post No. 4 for one year. Saratoga School District No. 11 elects two directors, one for Post No. 1 for five years and one for Post No. 2 for two years. Guernsey School District No. 2 elects two directors, one for Post No. 1 for five years and one for Post No. 2 for one year. Blevins School District No. 2, Hempstead County School District No. 3, Patmo School District No. 8, Spring Hill School District No. 10 and Washington School District No. 12 elect one director each for a period of five years.

The polling places in these districts will be the same as heretofore designated.

One member is to be elected on the County Board of Education from Zone No. 2 for a period of five years.

All vacancies of school boards or County Board members filled by appointment since the last annual school election must be elected by popular vote in this election to complete the unexpired term of the one making the vacancy.

The 1955-56 proposed school budget of each district together with tax rate must be made public on or before January 17, 1954.

All districts must publish a legal notice of election once a week for three consecutive weeks, the first publication to be at least 20 days before the election.

To place a name on the ballot for school director a petition must be signed by at least 20 electors of the school district designating the post for which he is running and the petition must be filed with the secretary of the County Board of Election Commissioners at least 20 days prior to the school election. For a name to be placed on the ballot for a position on the County Board a petition must be signed by at least 50 qualified electors from Zone No. 2 at least 20 days before the election. The final date for filing these petitions is February 27.

The election officials to conduct the annual school election will be selected by the County Board of Election Commissioners.

Six Die, Four Hurt as Plane Hits House

LONG BEACH, Calif. (AP) — Shrouded in rain clouds, an Air Force jet fighter plane rocketed into a Signal Hill residential district late yesterday, demolished two homes and exploded, set fire to a third home and damaged a fourth. Six persons died and four were injured, two so seriously they may not recover.

In addition, an elderly man, horrified at what he saw, suffered a heart attack and died.

The hurtling plane ripped out telephone lines and broke gas mains that erupted into geysers of flame. Blazing jet fuel cascaded over what an instant before had been a quiet neighborhood in the oil producing area, which is completely surrounded by the city of Long Beach.

The pilot, Maj. Robert A. Blair of Omaha, Neb., was among the dead. A boy perished in the street where he was playing.

"There were flames everywhere in the houses, spread across the street," said Mrs. Dorothy McCormick, who said she was almost knocked off a chair in her home by the blast.

The search for bodies was switched to Toronto last night, after a man identified himself as the fugitive telephone caller from Toronto about 10 miles from the Long Beach area.

Three Long Beach police were summoned to the restaurant where Ritchie had been staying at about 10 p. m.

Wants Leers of Secret Viewers Halted

By ELTON C. FA

WASHINGTON (AP) — The Atomic Energy Commission has passed word to the Navy to do something to stop those chatty and descriptive leers sene homby military personnel who saw the big and supposedly secret atomic tests in the Pacific.

Recalling a number of letters from last force personnel who witnessed the test of a hydrogen explosive device at Eniwetok in the fall of 1952, a reporter asked the AEC what would be done to prevent similar disclosures in the forth coming series of tests at which an H-weapon is expected to be used.

An AEC spokesman replied: "The task force is expected to have adequate measures in force to safeguard security restricted data."

Skies Clear in Eastern Storm Area

By United Press

Skies cleared winds diminished and temperatures fell today as the East dug out after the worst winter storms in five years.

The U. S. Weather Bureau said that more snow in the hard-hit Atlantic seaboard area was not likely today or tomorrow, although light snows were forecast from the Dakotas to Ohio and Kentucky.

A new storm in the Rocky Mountains and Great Basin dumped six inches of snow on Los Vegas Nev., but amounts in other Western areas were generally much lighter.

At New York City, where 9 inches of new snow fell since Sunday, streets and highways were almost cleared of snow and traffic was near normal, although still hampered in the suburbs.

The light snows forecast for the nation's midsection were expected to take in the firm of sleet or ice rain in the area around Southern Illinois.

Some light snows were already falling in the extreme northern Great Lakes and Plains states early today.

The coldest spot in the country was Eau Claire, Wis., with 22 below zero, although subzero readings were common in the Western Great Lakes.

Brownsville, Tex., was the warmest weather station with a 34-degree reading.

Records Now Tell Junior About Stork

By JAMES R. BACON

HOLLYWOOD (U) — Ever have little Junior ask: "Where did I come from, Mommy?"

If you're like most of us parents, you probably stammered, got red in the face, then blurted out some makeshift answer that sounded a little stupid — even to Junior.

Today, Capital Records previewed the easy way to answer those inevitable stork queries. A new record album due Feb. 1 is called "The Birth of a Baby." It is just exactly that.

The album is a 30-minute tape recording of an actual birth which was produced for a radio broadcast with the parents' cooperation over station WISC, Madison, Wis.

The only people allowed in the delivery room were the doctors, nurses and the mother. The baby, the mother's first, also showed up. All are anonymous, although the father was a University of Wisconsin student when the boy was born two years ago.

A doctor acts as commentator and does a good job on the play-by-play, sounding somewhat like a medical Edward R. Murrow describing the coronation of a queen. He even starts off in the best broadcasting manner, c.e.: "The obstetrician has just entered the delivery room."

From then on, every detail and sound of the baby's birth is recorded, building up the suspense that only nature can create. The album even has a strong finish, the baby's crying drowns out the commentator. Throughout, the voice of the obstetrician can be heard, urging: "Push, mother."

Then the mother's breathing into the anesthetic mask becomes more and more pronounced as the birth

changed to 60 cents a bal high than the previous close. March 33.34, May 33.55 and July 33.46.

neers, creating a weird electronics sound reminiscent of a primitive moan.

The matter-of-fact commentator starts getting a little excited when he announces: "The scalp is now clearing of the hips and then the much hair."

The commentator reports the clearing of the hips and then the obstetrician announces those famous words: "It's a boy."

Next comes the slapping noise and the voice of the obstetrician: "Come on young man, say hello."

Then the star of the show comes on stage with a whimper, followed by a cough, another whimper and then takes over the spotlight with a lusty yowl.

Alan W. Livingstone Capitol vice president, said all royalties from sale of the record will go to the Madison Hospital, where the baby was born.

A whale cannot breathe through its mouth.

Man May Face Kidnaping Charge

BENTON (UP) — An elderly painter, arrested along with a missing teen-age boy, faced return to Las Cruces, N. M., to face kidnaping charges, Sheriff Pat Berry said today.

Manley Martin, 52, and Danny Moffat, 14, were picked up at a small rural house near here that had sheltered them for the past three weeks.

Berry said he was going to question the boy to determine whether or not the lad went willingly with Martin when the two disappeared Nov. 25 at Las Cruces. Kidnaping charges have been filed in New Mexico, Berry said.

New Mexico officers said the disappearance followed a number of gifts the man had presented the boy, including a Shetland pony. Charles of contributing to delinquency of a minor also were filed.

in New Mexico. Moffat's father made a trip through Arkansas several weeks ago in an attempt to pick up the trail of the pair. He told Berry that Martin was in possession of a motorcycle and a concrete mixer.

A farmer spotted the equipment yesterday in the yard of the house in which the two were living, and notified Berry who sent deputies to make the arrests.

The small farmhouse apparently had been abandoned by its owner before the two moved into it.

delegation told the council a Negro woman was refused service at the restaurant after her flight was delayed.

Mayor George Dempster said he was told by officials of Sky Chef Inc., which operates the restaurant, that the firm would end segregation if the council passed a resolution instructing it to do so.

he settled down as a baritone in a small Mexican touring opera company. One night the regular tenor refused to go on. Vinay rehearsed his throat, sang the role — and learned he was a natural tenor. "I like it better," he said, smiling. "The baritone is always the villain and never gets to kiss the soprano. The tenor does. He is the hero — and the sopranos are getting pleasanter to kiss every year."

"But the audiences require more now than in the old days. They not only expect you to be able to sing. You must also act and look the part."

Vinay, who starred in the Wagnerian festival at Bayreuth, Germany now travels up to 50,000 miles a year in America and Europe. He keeps apartments here and in Milan, but lives most of the year in hotel rooms.

"Many people don't know how to feel at home in a hotel room," he said. "But home is a state of mind you just have to know how to make yourself comfortable."

Vinay makes himself comfortable by lying along a medicine ball which he blithely bounces against the wall when he needs exercise. He sometimes also packs a five-foot telescope — astronomy is one of his hobbies — and if he becomes bored he sets it up by the hotel window and scans the stars. "It is very easy in this world to lose your sense of proportion," he said. "But when you look at the heavens through a telescope it reduces your personal problems of success or failure. It will give anyone a better perspective on his own importance — yes, even a tenor."

All successful people have private fears, but Vinay grinned when I asked him what he was most afraid of.

"A cold," he said. "Tenors are not to be sneezed at — particularly when they are six feet tall and weigh 220 pounds."

Scientist Raps Army Post Probe

SCHENECTADY, N. Y. (AP) — Dr. Harold C. Urey, atomic scientist and Nobel Prize winner, last night criticized the congressional probe of alleged espionage at Ft. Monmouth and said, "I don't believe the U.S.S.R. has a better agent in this country than Sen. McCarthy."

The scientist called such investigations "an irresponsible type of activity."

He said he had been told that the Ft. Monmouth investigation conducted by Sen. McCarthy (R-Wis) had "ruined morale" among scientific personnel at the Army radar and communications research center there. He expressed the fear that such developments might discourage young people from going into scientific work.

Urey made the remarks in reply to questions from an audience attending a lecture sponsored by the Schenectady Freedom Forum.

Plan Puts U. S. Deeper in Labor Deals

by JAMES MARLOW

WASHINGTON (AP) — President Eisenhower and the government will be a lot deeper in labor-management relations if Congress approves his proposals for amending the Taft-Hartley labor relations act.

Two prime examples among the President's 14 proposals: a fact-finding board to make recommendations in a national emergency dispute; and a government-conducted vote in the case of any strike.

Under the law now, when the President finds the national welfare is threatened by a strike, he appoints a board to investigate and report back with the facts.

Eisenhower asked that this be changed so that such a board would make recommendations on what the settlement should be. Since the President handpicks the board, its recommendations become, in effect, his own.

Neither the company nor the union would have to accept the recommendations.

At present workers faced with a decision on a walkout can vote among themselves on whether they want to strike. Or they may leave it up to a selected group of their union officials.

Eisenhower urges more federal say on this. He said it should be written into law that the government must conduct a vote among the employees on whether they want a strike.

He didn't say in his message to Congress, whether the vote should be taken before or after a strike started. He said "... Nothing as vitally affects the individual employee as the loss of his pay when he is called on strike." He didn't say "... called on to strike."

Almost at once Sen. H. Alexander Smith (R-N.J.), chairman of the Senate Labor Committee, produced a bill calling for a vote after a strike had started.

In the administration ranks on this, Secretary of Labor Mitchell told newsmen he thought Smith's bill was going to call for a vote before a strike.

Under a special World War II law — from 1943 to 1945 — the government had to take a vote among workers before a strike could be called in a war plant or one connected with the war.

Strike votes were taken among about 2,100 groups of employees. In about 1,800 cases the vote was to "strike," although only a small percentage actually went out. About 300 voted against a strike.

Eisenhower also proposed that the mediation service should step into a labor dispute where an injunction had been granted. That the government find better safeguards for welfare funds; and that employers must take an anti-Communist oath, as union leaders now must do.

Those points would all require the government to have more say in union or company affairs or both.

No one could predict whether government control, both federal and state, would be increased as a result of Eisenhower's suggestion for a study to find a way to avoid conflicts of jurisdiction between the two. He urged clearing the way for states to handle what they

Woman, Son Picket Old Man's Plant

ST. LOUIS (AP) — "He's going to be sore before it's over." This was the opinion voiced yesterday by Mrs. George V. Harrison as she and her 10-year-old son picketed her husband's venetian blind factory in a wage dispute.

Mrs. Harrison and George Jr., astounded labor officials by asking for membership in Local 785, AFL Carpenters Union. They say it's no joke.

The son said his father had refused to increase his pay of 75 cents an hour and noted he plans to get married in May. Mrs. Harrison said she had received no pay a t all for assembly and cutting work.

Asked what her husband's attitude was, Mrs. Harrison replied: "He was just as sweet as can be. Didn't say a word. He's going to be sore before it's over."

British Ground All Jetliners

LONDON (AP) — The pride of British commercial aviation, the Comet jet liner was a aviation the Comet today pending a "minute" investigation of Sunday's crash of the eight-mile-a-minute aircraft in which 35 persons died off Elba.

The government-owned British Overseas Airways Corp. took its seven Comets off commercial runs in Europe, Asia and Africa. The crash in the Mediterranean was the seventh involving a Comet since the aircraft went into regular service 15 months ago, and the third in 10 months with fatalities.

In all 89 persons have died in the aircraft.

At Port Azzurro, Elba, near the scene of the latest crash, British and Italian investigation commissions studied the possibility of raising the Comet wreckage from 400 feet of water to further their inquiry. Twenty bodies were believed trapped in the sunken wreckage. The other 15 — from the 27 passengers and 6 crew — were recovered Sunday.

Investigators still could give no explanation for the crash, which apparently resulted from a mysterious explosion in the air.

Two French Airlines also grounded the six Comets they fly but the Royal Canadian Air Force, the only other foreign operator of the four-jet plane said it would keep the aircraft in operation for the time being. The ROCAF has two.

consider statewide emergencies.

Union leaders and company managers may argue whether Eisenhower's proposed changes do more for one of them than the other. But the net effect seemed certain to be a bigger role for government in labor disputes.

Avalanches Kill 200 in Austria

By ROBERT BRANSON

VENNA, Austria (UP) — The U. S. Air Force sent helicopters into Austria from Germany today to help in rescue operations in the avalanche belt where giant snow slides have claimed 200 victims.

The helicopters were ordered to join ground parties seeking to get help to injured and homeless Alpine villagers in the Blons-Fontanella-boden area of the Vorarlberg province. Two entire villages were reported buried Monday.

Casualty figures were sketchy. Austrian authorities said there probably would be no official count "for several days" because of the remoteness of the affected regions and the widespread breakdown of communications.

The highest estimated toll was published by Vienna Daily Welt-press, which listed 282 casualties for the five-day period. These included 52 dead, 70 missing and 160 injured. However, authorities said they believed the total was "too high."

Elsewhere, Switzerland reported 23 dead or missing. Italy had three dead, and Germany had two dead. Lt. Col. Edward M. Strode, of Tucson, Ariz., spokesman for American occupation forces in Austria, said two of the helicopters would land first at the Tyrolean capital of Innsbruck.

There, he said, they would pick up additional supplies and a team of German shepherd "avalanche dogs," which are specially trained to scent and dig for snow-buried victims.

Strode said a third helicopter was scheduled to land first at Bregenz, capital of the Vorarlberg Province, and then ferry a load of gasoline into the Grosses Walsertal.

"Strode said 'everything in our power will be done to alleviate this terrible situation.'"

An early thaw melted foundations from the mountains of snow that accumulated during last week's storms sending tons of snow cascading onto villages in four counties of the Alpine valleys. Today

Ike Holds Up Opinion on Russian Faith

By MARVIN L. ARROWSMITH

WASHINGTON (AP) — President Eisenhower said today this country's preliminary atomic talks with Russia are encouraging, but it's too soon to tell whether the Soviets are acting in good faith.

His reference to the atomic talks, which were an outgrowth of his proposal for an international atomic energy pool for peaceful purposes, came at a news conference in which the President also discussed important domestic issues.

On the controversial farm program which he submitted to Congress last Monday, Eisenhower declared he believes it is workable and practicable. As to whether it is politically feasible in this election year, the President said he would find out about that later, but he is convinced the program for a switch to flexible price supports is right.

On his labor law proposal for a system of government-conducted elections among employees on the question of striking, the President said he would leave to Congress whether such votes should come before or after a strike has begun.

Eisenhower said that in making the recommendation as part of his plan for amending the Taft-Hartley Act he was trying to establish a principle. He said he purposely avoided spelling out details because that is the province of Congress.

the situation remained critical in Austria but in Switzerland authorities said the worst was over.

The casualties so far included: Austria, 51 dead and 121 missing; with little hope of being found alive; Switzerland, 23 dead or missing; Italy, three dead and Germany, two dead.

Sixty of the 385 residents of Blons were officially listed as missing. U. S. troops turned out yesterday to dig out a snowbound British military train and early today bulldozers and other heavy equipment began clearing snow-blocked roads.

Reorganization Formula Draws Opposition

WASHINGTON (AP) — Sen. Morse (Ind.-Ore.) today promised to fight a Senate committee reorganization formula worked out by Senate leaders, but they predicted it would win anyway.

The formula is designed to permit the Republicans to retain control of all important legislative committee even though they are a minority by one vote in the Senate.

Senators Knowland (R-Calif.) and Lyndon B. Johnson (D-Tex.), the party leaders, agreed upon the plan yesterday and said they expected it to win easy approval.

Morse announced he would oppose the scheme because it leaves him on the Public Works and District of Columbia committees, generally regarded as undesirable assignments.

The Knowland-Johnson plan, involving a change in Senate rules, will give the GOP 18 bonus seats on committees as the technical Senate majority. They now have 14. Bonus seats are posts which senators may hold as a third committee assignment, in addition to each senator.

Some such device this was needed to let the Republicans control the committees, since there are only 47 GOP senators to 48 Democrats.

The new plan will give the GOP a margin of one on each of the Senate's 15 regular committees except those on which Morse sits.

The Democrats decided to go along with an increase in the Republican bonus seats, one Demo-

W.C.T.U. Has January Meeting
The January meeting of the W.C.T.U. was held on Thursday afternoon in the home of Mrs. S. O. Logan with Mrs. John A. Davis assisting hostess.

A potted pink azalea was placed on the mantel and dish filled with berries decorated the coffee table. The president, Mrs. J. T. McRae, presided. The meeting was opened with the Lords Prayer repeated in unison.

The minutes were read by the recording secretary. The corresponding secretary read a thank you letter from the Army and Navy Hospital in Hot Spring expressing their appreciation for the home made candy sent to the veterans.

Mrs. T. C. McRae, program leader, gave the devotion on the theme "Carrying Light into Darkness" and read II Corinthians 4:6. She also introduced the program topic on "W.C.T.U. Legislative Program for 1953-54".

Mrs. J. T. McRae gave an interesting article on "How to Secure Good Legislation". An article from the Union Signal on Greetings from the National Corresponding Secretary based on New Year resolutions was given by Mrs. S. O. Logan.

The meeting closed with the Aaronic benediction. The hostesses served a dainty sandwich course with Russian tea to 19 members.

Luncheon Fete
Mrs. Charles A. Hesterly, Mrs. Charles A. Hesterly, a recent bride, was feted with a luncheon given on Saturday by Mrs. Berry Hesterly and Mrs. Frank McLarty Jr. of Hope in the Hesterly home.

The living room was colorful with a mantel arrangement of pink mums and white snapdragons. On a drum table pink mums and ferns blended with the lamp. On the coffee table pink tapers in silver candle sticks joined the background for pink carnations and white snapdragons interspersed with pink mums in a cut glass bowl.

A cut glass vase filled with pink carnations was placed on the desk. In the hall a potted pink geranium complimented the rose velvet love seat. In the den wrought iron standards filled with pink begonias.

Juryman's Act Called Heroism
CLEVELAND (AP) — A four-day trial of two men on grand larceny charges was nearing a close when a juror learned his son had been killed in a Nebraska airplane crash.

If the juror were released from further duty, as Common Pleas Judge Earl R. Hoover offered yesterday, it would mean a mistrial. The case would have to be tried again.

Andrew Andre, 47, a juror, decided to remain. "I would like to leave for Nebraska now, but... I want to do my duty to my community," he explained.

Five hours later the jury completed its work, acquitting one man and convicting another of stealing coiled wire.

"An act of heroism," Judge Hoover said of Andrews' decision.

Compromise on Little Man's Break Likely

By LOLE C. WILSON
WASHINGTON (UP) — Compromise on the tax social security dispute to give the little fellow a break seemed today to be on the way.

This could be accomplished by increasing personal income tax exemptions from the present \$600 figure, perhaps with fringe benefits such as a tax allowance for the care of children of working mothers.

Sen. Homer Ferguson (R-Mich.) suggested last night in a televised interview that Congress might ease the tax burden on lower income groups that way.

Congress refused last year to act on President Eisenhower's proposal that the social security tax in crease be postponed. The President did not renew the suggestion last week in his annual message on the state of the union.

Opposition to postponement was sufficient to show that Congress would refuse again to act. Chair man Daniel A. Reed (R-N) of the House Ways and Means committee said in a statement today that he foresees "absolutely no possibility" of congressional action now to rescind the social security hike of from one and one-half to two per cent which became effective Jan. 1.

In addition, Rep. Robert W. Kean (R-NJ) said today he has heard that in order to help pay for more benefits the administration may ask that the wages subject to the social security tax be hiked from the present \$3,600 to about \$4,200 a year.

Reed said he is "in complete

Cooperation Is Asked by Ike

WASHINGTON (AP) — President Eisenhower today asked the National Security Training Commission to work closely with the Office of Defense Mobilization in developing plans for maintaining an adequate military reserve establishment.

In a letter to Maj. Gen. Julius Ochs Adler, the commission chairman, Eisenhower noted that the commission recently completed a lengthy study of universal military training proposals. The commission recommended a start on UMT.

The President's letter suggested the commission arrange to work closely with the director of defense mobilization, Arthur S. Flemming.

Flemming's manpower commission recommended over the weekend that plans for universal military training be held in abeyance pending a study of plans for creation of reserve forces. Eisenhower said he was in general agreement with the Flemming recommendation.

accord" with the administration decision against trying to block the social security tax increase.

Secretary Oveta Culp Hobby's welfare department, however, already had abandoned the contest. The department said that in view of Mr. Eisenhower's plans for expanded social security protection among millions of persons not now covered, no further effort would be made to hold the tax on employers and employees at one and one-half per cent each.

Arkansas Farm Grop Split on Program

By WILLIAM W. HUGHES

LITTLE ROCK (UP) — Leaders of the two largest farm organizations in Arkansas were lined up on opposite sides today on President Eisenhower's new farm program.

"We're going to try to get our people to go along with it," President Joe Hardin of the Arkansas Farm Bureau Federation said. The federation represents more than 55,000 members.

"I predict the President is going to run into plenty of trouble with this program," President Al Hopkins of the Arkansas Farmers' Union said. He represents 27,000 members.

The statements of both men supported in general similar comments by the national chiefs of their organizations last night.

The plan Mr. Eisenhower outlined to Congress yesterday envisions flexible price supports and minimum controls.

Hardin said it is important that the nation's farmers are "unbiased and bi-partisan" in their farm activities.

Everybody has been dissatisfied with what we've had he said. But then when someone tries to change it it causes an uproar.

Harding said he was accepting Mr. Eisenhower's plan with an open mind.

Natural gas is priceless: gas delivered to homes contains a special ordorant for safety's sake.

Pella Won't Try to Form Cabinet

ROME (AP) — Former Premier Giuseppe Pella today refused a request from President Luigi Einaudi that he try to form a new Italian government.

Pella resigned the premiership a week ago after a split with leaders of his middle-of-the-road Christian Democrat Party, Italy's largest, who thought his policies were too far to the right.

After the week of consultation with political leaders of all parties, Einaudi called Pella to the presidential palace today and asked him to again head the cabinet.

Canadians Hold Smuggling Suspects

MONTREAL (AP) — The Canadian Mounties said early today they are holding a European and a New York resident.

with a suspected attempt of smuggling nearly \$200,000 worth of uncut diamonds into the United States.

Neither man was identified but they were expected to be arraigned here later today.

Inspector Rene Belec, head of the Mounted Police's investigation branch here, said the European, a 25-year-old native of Poland, arrived from Europe at Dorval Airport Friday Police visited him at a midtown hotel several hours later and found a parcel containing thousands of the uncut diamonds.

The New Yorkers was picked up at a Montreal home Sunday. Belec said it was believed his job was to carry the diamonds into the United States.

Tax-Saving Abroad Folds on Actors

By O. THOMAS

HOLLYWOOD — Stars like Clark Gable, Lana Turner, Gene Kelly and Claudette Colbert have returned from long picture-making jaunts abroad, and chances are they won't soon be going again.

Gregory Peck and Alan Ladd are reportedly among those yearning for an early return to Hollywood. Aside from the normal feeling of homesickness, many of the stars have good reasons for wanting to be back.

Glenn Ford, who has made at least five pictures out of the country, was telling me some of the factors that will cause him to think twice before he accepts any other overseas assignment. Unlike the others I have mentioned, Glenn did not go abroad for tax purposes.

"I could very easily have taken advantage of the 18-month tax deal," said the actor on "The Human East" set. "I had already been in Europe eight months to make a picture. But another 10 months would have meant spending two Christmases away from home. I couldn't see it."

"I suppose I was stupid financially. But it turned out that the tax deal was repealed before I would have finished my 18 months."

MOSCOW VERSION

LONDON (AP) — Moscow radio says a team of 200 Soviet historians is working on a 10-volume history of the world.

and I wouldn't have earned a paid vacation. You've got to shock coming. Put your travel bag away. You can fix your own tract to provide time before the after the production. But you generally find you have to work the moment you arrive. The extra month you planned for touring will probably be taken up with finishing the picture.

"Two things you will learn in pictures in foreign countries: patience and tolerance. You can expect to find the comforts you have in Hollywood. Waitress? You carry your own. Dressing room? They'll laugh at you when you mention it. Heat on the set? There isn't any if you want it. Keep warm, you'll buy a heater and keep it beside you."

"You'll also have to learn that time means nothing. A scene that takes five hours to shoot in Hollywood will require five days over there. In France, work starts at 9 in the morning. But that doesn't mean everyone is on the set and ready to shoot at 9. That's the hour when everyone starts to arrive at the studio."

"Another thing you'll learn: American actors aren't welcome everywhere. In England, they're glad to have you and treat you well. But in many other countries they resent your presence. They consider that you are taking over the job that rightfully belongs to native actors."

"They also think of Americans as children. They consider Hollywood movies juvenile and laugh at our 'childish' tastes."

Pocahontas, Ark. Girl Wins \$1,000 Lion Oil Scholarship

Prize-Winning Essay Written In 3 Hours... 15 Other Arkansas Boys and Girls Named \$25 Merit Award Winners in Zone "A"

A surprised and happy St. Paul High School senior has been named winner of one of three \$1,000 college scholarships in the Lion Oil Student Essay Contest recently completed. She is Barbara Baltz, 17, the oldest of five children of a Pocahontas electrical appliance dealer. Described by her teacher-sponsor, Sister M. Agnes, O.S.B., as industrious and responsible, Barbara has been a "second mother" to a younger brother stricken with polio. Busy editor of the school paper, she wrote her essay in only three hours. She has not yet decided which college she will attend.

Sister Agnes, awarded \$200 cash for encouraging the winner, used the Essay Contest as a class project. She hopes to use her cash award for further study in chemistry. In accepting a \$100 cash prize for the purchase of school library books, Father Edward N. Hinckley, school superintendent, expressed appreciation for the Lion Oil Scholarship Program.

Ninety other high school students and teacher-sponsors in three zones received \$25 cash Merit Awards for outstanding essays on the contest subject, "What My Home State Offers Young People Today." Since the Scholarship Program began in 1950, southern students and teachers have been awarded 832 prizes worth more than \$75,000.

Teacher Contest Closes February 15

The teacher essay contest on "What My Home State Offers Young People Today" closes February 15. The contest is open to all teachers in the state. Prizes include \$1,200 graduate scholarships, three \$100 cash awards, thirty-three \$75 cash Merit Awards, essays and books, 1,000 words or less. All school teachers, including school superintendents and principals who teach in elementary or high schools in designated areas, are eligible. Under the new three-zone system you compete only with teachers in your own zone.

The current Lion Oil Student Essay Contest closes Jan. 15. The last student contest opens immediately thereafter with essays on "How My Favorite School Subject Can Influence My Future." Awards include three \$1,000 scholarships, forty-five Merit Awards of \$50 each, and \$100 cash prizes to scholarship winners' schools. Teacher-sponsors of winners also share in prizes. For complete information on both contests get rules booklet from your principal, from your Lion Oil Dealer or from the Lion Oil Scholarship Fund, El Dorado, Arkansas.

Why The Scholarship Fund Was Established

Lion is an integral part of the South's economy. More than 2,700 persons who receive annually over \$16,000,000 in wages and benefits.

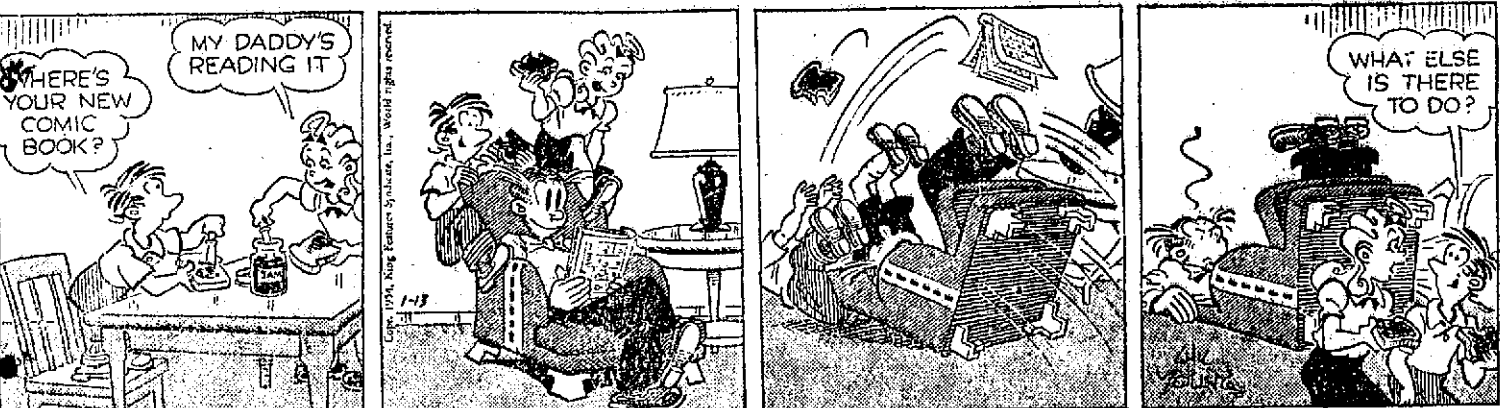

Lion Oil manufactures more than half the petroleum products which keep the wheels of Southern industry, transportation and agriculture turning. Lion's oil and gas products enrich the soil of Southern farms, help Southern farmers produce more and better crops.

The Scholarship Fund is Lion Oil Company's way of saying "We believe in the South." It's a fund for the sons and daughters of the good neighbors who are proud to be "Home Folks." Good Neighbors.
